**FORT LAUDERDALE, FL, AUG. 2021**— Fort Lauderdale-based private equity firm IBS Institutional Capital (IBS), an IBS Investment Bank sister company (IBS, N.A.), today announced that the firm had expanded its recently launched intellectual property (IP) financing offering to better support IP-rich companies throughout the continental U.S.

Since lending to a consortium of IHOP franchisees in 2011, the firm’s family of companies has led the charge on making aggressive financing available to the small business and lower middle market segments. Backed by the firm’s affiliated fund, IBS Equity Fund III, LLC, and co-lender syndication, the \$250MM financing envelope has expanded to provide growth capital in the form of warrants, royalty acquisitions, and litigation monetization on a select basis. The firm targets growth companies in knowledge-based industries with rich IP portfolios, including patents, design, and trade secrets and at least \$2M in annual revenue.

“IP is largely misunderstood and underrepresented in the capital markets. However, as the world rapidly transitions from tangible to intellectual assets, IP must be recognized as a valuable core asset. Our financing provides companies with non-dilutive, patient capital to fuel American innovation”, IBS Institutional Capital Chief Investment Officer Jason Jackson told reporters.
